Resolution No. 2037, dated 20th December 1879, publishing the Rules for District and Presidency Savings Banks.

Resolution No. 909, dated 20th February 1880, republishing the Rules of the 20th December 1879 as finally revised.

RESOLUTION.—In promulgating the Savings Bank rules, first published on the 20th December 1879, and revised and completed on the 20th February 1880, it was the intention of the Governor-General in Council to facilitate and encourage the deposit of savings in the Public Savings Banks. It was not the object of His Excellency in Council to compete with ordinary banks of deposit, or to attract to the public treasury deposits which would, in ordinary course, be left with such banks.

2. The balances in deposit in the Government Savings Banks of all kinds have been as follows :—

		Rs.
On the 31st March	1870	1,01,63,000
	1871	1,08,55,000
	1872	1,23,68,000
	1873	1,47,82,000
	1874	1,73,69,000
	1875	1,74,68,000
	1876	1,89,54,000
	1877	1,93,62,000
	1878	1,92,54,000
	1879	1,91,25,000
On the 31st December	1879	2,04,26,000

3. The new Rules came into operation on the 1st January 1880, and the subsequent additions to the deposits in the Savings Banks have been as follows :—

	Rs.
January	6,15,000
February	7,26,000
March	8,65,000
April	9,87,000
May	9,58,000
June	15,18,000
July	17,02 000
August	19,63,000
Total ...	93,34,000

4. Thus the balances in deposit on the 31st August last had increased to Rs. 2,87,60,000. The deposits since the 31st August are not yet known.

5. It is evident that the effects of the new rules have been to stimulate deposits more than was anticipated. Moreover, it has been ascertained that many of the new depositors do not belong to a class for whom Public Savings Banks are designed.

6. The Governor-General in Council has accordingly resolved to restrict again the amount of deposits to be received on one account to Rs. 500 in one year, and to limit to Rs. 10½ the amount of monthly interest to be allowed on one account.

7. This last limitation, however, will not, till the 1st of May next, apply to depositors who are already in receipt of higher monthly interest. Without the special authority of the Comptroller-General, no depositor who is not already receiving more than Rs. 10½ monthly interest will in future receive more monthly interest than that sum; and, subject only to the special permission to the contrary of the Comptroller-General, this limit will, from the 1st May 1881, apply to all deposits, excepting only compulsory deposits in State Railway Savings Banks.

The following revised rules for Government Savings Banks are accordingly published, all previous Rules being revoked :—

I.—In these Rules—

"Depositor," "Deposit," and "Secretary" bear the meaning which they bear in *The Government Savings Bank Act*, 1873.

"Account" means the account of a depositor in a Government Savings Bank.

"Balance" means the balance at credit of an account.

II.—Any person may become a depositor on his own behalf, or on behalf of any other named person dependent upon him. Deposits may also be made by the managers of benevolent or other public associations, or by public officers, of money deposited with them *ex officio* as security for the discharge of any public duty or for the fidelity of any public officer, or for the accomplishment of any public object.

III.—Subject to the provisions of these rules, the Government of India guarantees the repayment of every deposit with interest.

IV.—Without the sanction of the Comptroller-General, no account will be open for less than one rupee, and no person may deposit more than five hundred rupees in all between the 1st of April in any year and the 31st March of the following year.

V.—Interest will not be allowed upon a smaller balance than 1½ rupee, or upon the excess in any balance over the highest multiple of 1½ rupee.

VI.—Interest will be allowed for each calendar month upon the minimum balance of the account between the close of the fourth day and the end of the month.

VII.—Till further notice, interest will be allowed upon deposits at the rate of one pie a month for every 1½ rupee, which is equal to one anna for every Rs. 18, or one rupee for every Rs. 288, being at the rate of Rs. 4½ per centum per annum. Without the sanction of the Comptroller-General, no higher monthly interest will be allowed upon any balance than Rs. 10½.

VIII.—On the written request of any depositor, his balance, or any part of it, will be invested by the Comptroller-General in his own name in trust for, and at the risk of, the depositor at current market rates, in stock of any loan which he may specify; if no particular loan is specified, then stock of one of the four per cent. loans will be bought: and stock or notes of any Government loan, to a moderate amount, may be received by the Comptroller-General from or on behalf of any depositor and converted into stock. The stock thus bought or received will be held by the Comptroller-General on the depositor's account, the interest thereon, less a commission of one-quarter per cent., being added to his deposit, on advice from the Comptroller-General, and entered in his deposit book the first time that it is subsequently presented. Stock held on account of a depositor will, on his written request, be sold, and the proceeds added to his deposit, or, if he desires it, will be converted into notes and delivered to him. A commission of ¼ per cent. besides the Bank's fees will, be charged upon such purchases, sales, and deliveries.

IX.—Every account will be made up on the 31st March, and the interest then due calculated under these rules, added to the balance upon which future interest will accrue. If an account is closed on any other date, interest due to the end of the preceding calendar month will be paid to the depositor: but a depositor who closes an account should not ordinarily be permitted immediately to reopen it, except on payment of a fine varying at the discretion of the Secretary from one to ten rupees.

X.—Whenever a depositor changes his residence, an account may be transferred, free of charge, to the Government Savings Bank in the district to which the depositor is removing. Without the special permission of the Comptroller an account may not be otherwise transferred from one Bank to another.

XI.—A deposit book will be supplied to each depositor in which the Secretary or, if the Savings Bank is at a public treasury, the treasury officer, will acknowledge every deposit. The personal attendance of a depositor is not required; but no deposit will be received, or payment made, without the depositor's deposit book, and the Government will not be responsible for any deposit the receipt of which is not acknowledged in a deposit book. The interest due to date will be entered in each deposit book the first time that it is produced after the 31st March. The first deposit book will be supplied free of charge; but, if a deposit book is lost or injured, or if a closed account is reopened, one rupee will be charged for a new book.

XII.—Without special permission, a Depositor may not operate upon his account more than once in thirty days, or open more than one account in his own name or in the name of any member of his family, or for his own benefit, or the benefit of any member of his family. The Comptroller-General must take precautions to prevent any transgression of this rule, and in particular, any employment of an account as an ordinary drawing account. This rule is not meant to prevent any one from opening more than one *ex-officio* or public account.

XIII.—The Secretary may refuse to open any account or may close any account, for any sufficient reason, as, for example, because he thinks that the account is likely to be used, or is being used, contrary to the object with which Government Savings Banks are established, namely, the encouragement of saving.

XIV.—When the Secretary thinks it proper to close any account, he shall give notice in writing to the depositor of such closure. After the date of such notice, no deposit shall be accepted on the account so closed, and no interest shall be allowed upon the balance of the closed account after the end of the calendar month then current.

XV.—These rules apply as well to accounts opened before as after their publication.

XVI.—The Governor-General in Council reserves the right to alter or add to these rules at any time.

XVII.—A copy of the Government Savings Banks Act, 1873, and of these rules, shall be printed in each deposit book, and the signature, or, if he cannot write, mark of the depositor, obtained to the annexed declaration before any deposit is accepted from him.

Declaration to be recorded in accordance with Rule XVII.

I acknowledge that I have read these rules (or, if he cannot read, that these rules have been read to me).

INDIAN OCEAN—MOZAMBIQUE CHANNEL.—MADAGASCAR—WEST COAST.

Shoal South-West of Barren Islands.

The following account has been recently published by the Spanish Government—on the authority of D. Francisco Vines, Captain of the Corvette *Rosa del Juria*—of the existence of a detached shoal lying south-west of Barren islands, west coast of Madagascar, nearly 50 miles distant from that group:—

This danger (*Bajo del Vines*) was sighted from the *Rosa del Juria* at 10 A.M. on 22nd December 1871, bearing to the west-south-west, distant about 1½ miles—the vessel being then in 41 fathoms over sand and shells. On nearing it to the distance of about half a mile, the depth of 3¾ fathoms over coarse sand was obtained. Captain Vines then landed on the bank, and describes it as being composed of sand, almost circular, about 14 yards in diameter and to dry about 2 feet at low water, with 1¾ fathoms at the distance of half a cable around.

Position as given, lat. 18° 51′ 30″ S., long. 43° 1′ 25″ E.

NOTICE TO MARINERS.—(No. 17.)

INDIAN OCEAN—MOZAMBIQUE CHANNEL.—MADAGASCAR—WEST COAST.

Shoal South-West of Barren Islands.

The following account has been recently published by the Spanish Government—on the authority of D. Francisco Vines, Captain of the Corvette *Rosa del Juria*—of the existence of a detached shoal lying south-west of Barren islands, west coast of Madagascar, nearly 50 miles distant from that group :—

This danger (*Bajo del Vines*) was sighted from the *Rosa del Juria* at 10 A.M. on 22nd December 1871, bearing to the west-south-west, distant about 1¼ miles—the vessel being then in 41 fathoms over sand and shells. On nearing it to the distance of about half a mile, the depth of 3¾ fathoms over coarse sand was obtained. Captain Vines then landed on the bank, and describes it as being composed of sand, almost circular, about 14 yards in diameter and to dry about 2 feet at low water, with 1¾ fathoms at the distance of half a cable around.

RESOLUTION.—On the 12th April 1876, the Governor-General in Council recited, in a Resolution,* the principal documents relating to the then existing constitution of the Department of Finance and Accounts.

* No. 2168, recorded as Proceedings No. 15 of June 1876.

2. In a despatch* dated 14th April 1876, the Government of India, simultaneously, brought to the notice of Her Majesty's Secretary of State an apparent conflict between the proceedings recapitulated in that Resolution, and Acts 24 and 25 Vic., cap. LIV, under which an Accountant-General, like the other principal civil officers of the Administration, must, saving under an exceptional procedure, be a member of the Covenanted Civil Service; and made certain propositions for the remedy of this conflict.

* No. 141, recorded as Proceedings No. 16 of June 1876.

3. Subsequently, memorials were addressed to the Secretary of State by 190 members of the Bengal Covenanted Civil Service, remonstrating against the apprehended breach of the provisions of the Statute, as aforesaid.

4. In his despatch No. 404,† dated 26th October 1876, the Secretary of State, after reviewing the whole subject, pronounced the condition of the department unsatisfactory, and wrote as follows:—

† Proceedings Nos. 185 and 189 of March 1879.
Proceedings No. 194 of March 1879.

"The administrative business of finance, though intimately connected with the duties of accounting, is of a different nature, and requires very different qualifications. It is indispensable to the efficiency of a financial officer that he should have a thorough knowledge of accounts; but there is much of the work of keeping accounts that may well be performed by officers and clerks who would not be likely to become efficient financiers. If this distinction be duly recognized, it appears to me that there is no reason why an arrangement could not be made under which members of the Covenanted Civil Service should be employed in the Department of Finance and Accounts, in a manner that should secure the provision of recruits for the higher financial posts wholly from that Service, possessed of the requisite technical knowledge of accounts, while the less important but more special duties of the Account Branch might be supplied by Uncovenanted Servants, many of whom should be natives of India."

5 Owing to the conflicting interests affected by these orders, the Government of India has found it difficult to frame organic measures for carrying them into effect. But meanwhile, in making appointments to the five principal Accountant-Generalships, the Government of India has felt bound to conform in practice to the Statute.

6 In accordance with further instructions since received from the Secretary of State, and with the sanction of Her Majesty's Government, the Government of India has now resolved to re-organize the Department as follows, taking occasion to simplify its nomenclature by eliminating the titles of Deputy Accountant-General in Independent charge (for which the designation of Comptroller will be substituted), Inspector of Local Account Offices, Assistant to the Comptroller-General, Assistant to the Accountant-General, and Assistant to the Head Commissioner and Commissioners of Paper Currency.

7. Including the recently sanctioned office of Inspector of Local Fund Accounts in Bengal, and excluding the Comptroller-General's Assistant for Money Orders transferred to the Post Office, the Department now consists of 46 sanctioned appointments, besides a sanctioned staff of 14 probationers in training to fill vacancies.

8. Experience shows that the work of the Department cannot be done with less than 46 officers. But the Government of India considers that efficiency will be promoted, while, at the same time, there will be some saving of expense, by the substitution of eleven superior ministerial officers, of whom seven will be entitled CHIEF CLERKS, for eleven of the Enrolled Officers. The present Head Assistant of the Comptroller of British Burma may, at the same time, become a Chief Clerk without change of pay. The appointment of a Chief Clerk will be gazetted, and he may sign letters or discharge any other duties assigned to him by the Head of his office.

9. The Comptroller-Generalship is not included among the existing 46 superior offices. The Government of India has now finally decided also to remove from the List of Enrolled Officers, the five Accountant-Generalships for Bengal, Madras, Bombay, the North-Western Provinces and Oudh, and the Panjáb, which five offices will henceforth be treated as reserved by Statute to be filled ordinarily by members of the Covenanted Civil Service.

10. The whole Department will consist in future of the following officers:—

1 Comptroller-General.
5 Accountants-General.

30 ENROLLED OFFICERS.

2 Deputy Comptrollers-General.
1 Assistant Secretary.
5 Comptrollers.
5 Deputy Accountants-General.
17 Assistants Comptroller-General, Assistants Accountant-General, and Assistants Comptroller.

CHIEF CLERKS.

8 Chief Clerks.

11. The pay of the Comptroller-General will be, as heretofore, Rs. 3,500 a month.

The pay of the Accountants-General will be as follows:—

Two at Rs. 2,750 a month each;
Two at ,, 2,500 a ,, ,,
One at ,, 2,250 a ,,

besides which, the Accountant-General actually on duty at Calcutta or Bombay will receive a local allowance of Rs. 250 a month.

Hereafter the Accountants-General for Bengal and Bombay will ordinarily receive the highest pay thus provided namely Rs. 2,750 a month, or, if acting, their salaries will, as a rule, be reckoned on that pay. But as the existing distribution of the Staff has not been made with this understanding, this particular detail cannot be completely introduced till vacancies occur.

12. The pay of the 30 officers who are to be designated "THE ENROLLED OFFICERS" will be as follows:—

CLASS.	Number of officers.	MONTHLY PAY.			TOTAL MONTHLY COST.		
		Minimum.	Yearly increment.	Maximum.	Minimum.	Increment.	Maximum.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
I	2	1,750	50	2,000	3,500	100	4,000
II	5	1,250	50	1,500	6,250	250	7,500
III	7	1,000	50	1,250	7,000	350	8,750
IV	8	800	40	1,000	6,400	320	8,000

VI	4	400	40	600	1,600	160	2,400
	30				27,150	1,340	33,850

13. The pay of the eight CHIEF CLERKS will be as follows:—

CLASS.	NUMBER OF OFFICERS.	MONTHLY PAY.			TOTAL MONTHLY COST.		
		Minimum.	Yearly increment.	Maximum.	Minimum.	Yearly increment.	Maximum.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

IV	2	400	20	500	800	40	1,000
	8				3,600	280	5,000

14. The pay and distribution of the remaining four new Superior Ministerial Officers will be as follows:—

IN THE OFFICE OF THE—	NUMBER OF OFFICERS.	MONTHLY PAY.		
		Minimum.	Yearly increment.	Maximum.
		Rs.	Rs.	Rs.
Comptroller-General ...	1	300	18	390
Accountant-General, Bengal ...	1	400	16	480
Ditto do. Bombay ...	1	400	20	500
	1	300	18	390

15. The Government of India does not bind itself to adhere precisely to any particular distribution of the Enrolled Officers and Chief Clerks; but primarily and ordinarily they will be distributed somewhat as follows:—

IN THE OFFICES OF—	ENROLLED OFFICERS.						CHIEF CLERKS.				TOTAL.
	Class I.	Class II.	Class III.	Class IV.	Class V.	Class VI.	Class I.	Class II.	Class III.	Class IV.	
The Financial Secretary and the Comptroller-General	2	1	3	1	2	1	1	...	...	...	11
The Accountant-General, Bengal	2	...	...	1	...	...	1	...	...	4
Ditto, Bombay	1	...	2	...	...	...	1	...	...	4
Ditto, Madras	1	1	1	...	...	...	...	1	...	4
Ditto, North-Western Provinces and Oudh	...	1	1	...	1	...	...	1	...	4
Ditto, Punjáb	...	1	...	...	1	...	...	1	...	3
The Comptroller, Central Provinces... ...	...	1	...	...	...	...	...	...	1	2
Ditto, British Burma	1	...	...	...	1	...	...	...	1	3
Ditto, Assam	...	...	...	1	...	...	...	...	...	1

Ditto, Mysore	...	...	...	1	...	...	...	...	...	1
	2	5	7	8	4	4	1	2	3	2	38

16. Thus the average monthly cost of the Department will be—

			Rs.	Rs.
COMPTROLLER GENERAL				3,500
			Rs.	
Five ACCOUNTANTS-GENERAL			12,750	
LOCAL ALLOWANCES			500	
				13,250
	Rs.	Rs.	Rs.	
Thirty ENROLLED OFFICERS	27,150	—1,340	—33,850	... =31,617
Eight CHIEF CLERKS	3,600	—280	—5,000	... =4,650
			GRAND TOTAL	... 53,017

17. Without the previous approval of Her Majesty's Government, no one, who is not a Covenanted Civil Servant, will be admitted to the Enrolled List otherwise than as prescribed in paragraph 24. Subject to this general condition, the Government of India reserves to itself a free discretion to appoint any person to be an Enrolled Officer whom it may deem it to be for the interest of the public service so to appoint; but the emoluments of every Enrolled Officer will, as a rule, be regulated by the scale stated in paragraph 12, and in particular no higher emoluments will be granted to any Enrolled Officer only by reason of his being a member of the Covenanted Civil Service.

18. The Government of India will at any time make such changes as it may think expedient in the organization now announced: the present resolution is not to be regarded as in any sense a legal or moral contract, which the Government is not at liberty to vary without the consent of the officers of the Department.

19. The Government of India does not undertake to keep the complement of officers in each class always full, or to promote officers from class to class, only because there is a vacancy in a higher class, or otherwise than upon an unfettered consideration of their merits. But if there is a vacancy in a higher class, a corresponding addition may, at the discretion of the Government of India, be made to the complement of a lower class.

20. In order that there may be a supply of officers qualified by practical experience to succeed to the office of Accountant-General, at least three of the thirty-one Enrolled Officers actually present on duty will, as a rule, be Covenanted Civil Servants—namely, one in the second class, one in the third class, and one in the fourth class. Accordingly, a vacancy, whether temporary or substantive, caused by the transfer of a Covenanted Civil Servant from some office in the Enrolled List to some office not on the Enrolled List, whether in the Financial Department or not, or by the promotion of a Covenanted Enrolled Officer from one class to another, will, as a rule, be filled by the appointment thereto of another Covenanted Civil Servant.

21. The Government of India does not pledge itself, under all circumstances, to fill a vacancy in the office of Comptroller-General by the promotion of an Accountant-General, or a vacancy in the office of Accountant-General by promotion from the Enrolled List, or a vacancy caused by the transfer, or promotion to a higher class of a Covenanted Enrolled Officer by the promotion of a Covenanted Enrolled Officer from a lower class.

22. The Local Government must immediately re-appoint, in his proper relative place in the general administrative staff, any Covenanted Enrolled Officer who is permitted or required by the Government of India to leave the Department, relegating, as necessary, to lower rank and emoluments, the junior officers, acting and substantive, displaced in consequence of the reversion of the Enrolled Officer.

23. Eventually the two first class Enrolled Officers will usually be Uncovenanted Officers, if the Department contains such officers whom the Government of India considers fully qualified by standing and merits to be so appointed. It is not the present intention of the Government of India as a general rule to appoint to the first class any one but a Deputy Comptroller-General or the Assistant Secretary. The Assistant Accountant-General, Bengal, who is employed on the inspection of Local Fund Offices, and the Assistant in charge of the Currency Department and the Reserve Treasury in Calcutta will usually be in the third class. But an officer appointed to one of these offices, or to the office of Deputy Comptroller-General, if, by reason of such appointment only, promoted substantively, before officers senior to him in the Department, will usually hold the rank and pay to which he is thus promoted, only provisionally, while actually filling the office in virtue of his tenure of which he is thus promoted. The first class Chief Clerk will usually be employed in the office of the Comptroller-General.

24. To provide for the ordinary recruitment of the Uncovenanted Enrolled Officers, a body of Probationers will be selected, in the manner prescribed in Resolution No. 2273, dated 18th April 1876, by the competitive examination of three nominees for each vacancy, the nominees at every third examination being natives of India of unmixed descent. There will be eight such Probationers in all, and their pay will be as heretofore.

	Rs.
On first appointment	200
„ passing the Lower Departmental Examination	250
„ passing the Higher Departmental Examination	300

Thus, including the Probationers, there will be 38 Enrolled Officers. Until the Enrolled List contains less than 38 names, no more Probationers must be appointed.

25. Excluding Probationers, the Enrolled Officers and the Chief Clerks together will eventually number 38, or together with the four other new ministerial officers described in paragraph 14, 42. No new Chief Clerk or ministerial officer must be appointed substantively, in accordance with paragraphs 13 and 14 of this Resolution, until the number of Enrolled Officers, including the present Probationers, and including also the Chief Clerk of the Comptroller of British Burma, falls below 42. As soon as that happens, the total number of Enrolled Officers and Chief Clerks may, including the other four new superior Ministerial appointments, be kept up to 42 by the gradual appointment of eleven substantive Chief Clerks and new Ministerial Officers, as authorized in paragraphs 13 and 14. At present, excluding three officers, Messrs. FitzGerald, Hart, and Chapman, who are seconded, there are 45 Enrolled Officers.

26. No officer may be appointed to act as Chief Clerk, or in the other four new Ministerial appointments, while there are 41 Enrolled Officers present on duty. There are now 38 officers so present. Three acting Chief Clerks may therefore be appointed, and Messrs. Priyanáth Datta, Harish Chandra Mittra, and C. Hall are so acting.

27. In future no acting promotion will be given in the Financial Department in consequence of the absence of an officer on privilege leave, unless an officer is transferred from another station to fill the place of another officer, or required to perform decidedly more responsible and onerous duties.

28. The new organization will take effect from the 8th August 1880, being the date on which the Secretary of State's despatch No. 233, dated 15th July, was received by the Government of India. If the substantive pay of any Enrolled Officer is increased by the new scale, his next increment will be due on the 1st September 1881.

ORDERED, that this Resolution be published in the *Gazette of India*, and communicated for information and guidance to the Comptroller-General and to each Accountant-General and Deputy Accountant-General in independent charge.

Ordered also that this Resolution be communicated to the several Local Governments.

The 13th November 1880.

No. 3646.—*Resolution.*—The Presidency Municipalities, the Trustees of the Port of Bombay, and the Commissioners for making Improvements in the Port of Calcutta, are empowered, by the Enactments constituting or incorporating them, to borrow money for certain purposes by way of Debenture, on the security of the Rates, Taxes or Dues which they are authorized to levy or impose.

2. Under the Local Authorities Loan Act, other Bodies Corporate and Municipalities may also be authorized to borrow money upon the security of the Funds which they administer or the Taxes which they levy.

3. The Bonds or Debentures issued by all these Bodies, and Coupons issued with such Debentures, are, in the absence of any special exemption, chargeable with Stamp Duty at the rate of about half per cent.

4. The question whether Stamp Duty is chargeable on the renewal and sub-division of such Debentures is open to argument; but whether Stamp Duty is chargeable in such cases or not, the interests of the Stamp Revenue necessitate the attendance of the parties at the office of the Collector of Stamp Revenue, in order to the stamping (without charge) of the new Debentures. The Government of India is not willing to relieve such Debentures altogether from the payment of Stamp Duty; but it is prepared to exempt Coupons issued with them from the separate payment of duty, and is anxious to remove, as far as is compatible with the due protection of the Stamp Revenue, the inconvenience occasioned to the Debenture-holders by the necessity for attendance at the Stamp Office on each case of renewal or sub-division.

5. His Honor the President in Council thinks that these objects may be attained if the abovementioned Bodies Corporate are willing, on the issue of any Debentures, to compound for the Stamp Duty chargeable thereon, by the payment in a lump sum of half per cent. on the total amount of the Loan. There is no special provision in the law authorizing such a composition; but, on payment by any of the Corporate Bodies referred to, under such a composition, the Government of India will exempt the Debentures from any Stamp Duty with which they might otherwise be chargeable whether on issue, renewal, or sub-division.

6. The payments made under such compositions will be credited to Stamp Revenue.

No. 3715.—In exercise of the powers conferred by section 8 of the Indian Stamp Act, 1879, and in continuation of the Notification in the Department of Finance dated 14th August 1880, the President in Council has exempted from stamp duty all agreements with Railway Companies or Administrations which purport to limit the obligations or responsibilities of such Railway Companies or Administrations as carriers under the Indian Contract Act, 1872, sections 151 and 161, and are in a form approved by the Governor-General in Council under section 10 of the Indian Railway Act, 1879.

No. 3707.—In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878, the President in Council has exempted the following articles from the duties to which they are liable under items 24 and 51 of Schedule A of the Indian Tariff Act of 1875:—

Gum Arabic.
„ Benjamin.
„ Olibanum or Frankincense.
Mother-o'-pearl.
Tortoise shell.

The reason of this exemption is that the said articles are for the most part re-exported.

The following order, issued by the Government of India in the Military Department, is published for general information:—

Shoal South-West of Barren Islands.

The following account has been recently published by the Spanish Government—on the authority of D. Francisco Vines, Captain of the Corvette *Rosa del Juria*—of the existence of a detached shoal lying south-west of Barren islands, west coast of Madagascar, nearly 50 miles distant from that group:—

This danger (*Bajo del Vines*) was sighted from the *Rosa del Juria* at 10 A.M. on 22nd December 1871, bearing to the west-south-west, distant about 1¼ miles—the vessel being then in 41 fathoms over sand and shells. On nearing it to the distance of about half a mile, the depth of 3¾ fathoms over coarse sand was obtained. Captain Vines then landed on the bank, and describes it as being composed of sand, almost circular, about 14 yards in diameter and to dry about 2 feet at low water, with 1¾ fathoms at the distance of half a cable around.

REGULATIONS FOR PREVENTING COLLISIONS AT SEA REFERRED TO IN THE FOREGOING ORDERS.

Preliminary.

ARTICLE 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

Rules concerning Lights.

ARTICLE 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, and 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ARTICLE 3. A sea-going steam-ship, when under way, shall carry—

(*a*) On or in front of the foremast at a height above the hull of not less than 20 feet, and if the breadth of the ship exceeds 20 feet then at a height above the hull of not less than such breadth, a bright white light so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(*b*) On the starboard side, a green light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*c*) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*d*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ARTICLE 4. A steam-ship, when towing another ship, shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light which other steam-ships are required to carry.

ARTICLE 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry, in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of but not lower than her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships, when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ARTICLE 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ARTICLE 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ARTICLE 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ARTICLE 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ARTICLE 10. (*a*) *Open fishing boats, and other open boats, when under way, shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.*

(*b*) *A fishing vessel, and an open boat, when at anchor, shall exhibit a bright white light.*

(*c*) *A fishing vessel, when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.*

(*d*) *A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red, and the lower green, and shall also either carry the side lights required for other vessels, or, if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.*

(*e*) *Fishing vessels, and open boats, shall not be prevented from using a flare-up in addition, if they desire to do so.*

(*f*) *The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.*

(*g*) *All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.*

ARTICLE 10. This Article does not apply to fishing boats, open boats, or trawlers belonging to the several countries mentioned in the foregoing Order, viz., Khelat, Muscat, Zanzibar, Travancore, Kutch and Kattywar.

ARTICLE 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

Sound Signals for Fog, &c.

ARTICLE 12. A steam-ship shall be provided with a steam whistle or other efficient steam sound signal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog horn to be sounded by a bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows; that is to say—

(*a*) A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(*b*) A sailing ship under way shall make with her fog horn, at intervals of not more than two minutes, when on the starboard tack, one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*c*) A steam-ship and a sailing ship, when not under way, shall at intervals of not more than two minutes ring the bell.

Speed of Ships to be moderate in Fog, &c.

ARTICLE 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or falling snow, go at a moderate speed.

Steering and Sailing Rules.

ARTICLE 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

(*a*) A ship which is running free shall keep out of the way of a ship which is close-hauled.

(*b*) A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(*c*) When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(*e*) A ship which has the wind aft shall keep out of the way of the other ship.

ARTICLE 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on, to the other: in other words, to cases in which, by day, each ship sees the masts of the other in a line, or nearly in a line, with her own; and by night to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

ARTICLE 16. If two ships under steam are crossing, so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ARTICLE 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ARTICLE 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed or stop and reverse, if necessary.

ARTICLE 19. In taking any course authorized or required by these Regulations, a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz.:—

One short blast to mean "I am directing my course to starboard;"
Two short blasts to mean "I am directing my course to port;"
Three short blasts to mean "I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ARTICLE 20. Notwithstanding anything contained in any preceding Article, every ship, whether a sailing ship or a steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ARTICLE 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such ship.

ARTICLE 22. Where by the above rules one of two ships is to keep out of the way, the other shall keep her course.

ARTICLE 23. In obeying and construing these rules due regard shall be had to all dangers of navigation; and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

No Ship under any circumstances to neglect proper Precautions.

ARTICLE 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

ARTICLE 25. Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland navigation.

Special Lights for Squadrons and Convoys.

ARTICLE 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for ships sailing under convoy.

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 300 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand, tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

BENGAL CIVIL FUND.

Report of the Proceedings at the Special General Meeting held at the Town Hall, at 10-30 A.M., *on Monday, 22nd November* 1880.

PRESENT:—Hon'ble W. F. McDonell, v.c.; Hon'ble H. T. Prinsep; T. T. Allen, Esq.; E. G. Glazier, Esq.; J. Westland, Esq.; C. F. Magrath, Esq.; H. J. S. Cotton, Esq.; Jas. Crawfurd, Esq.; C. A. Wilkins, Esq.; W. H. Page, Esq.; C. Macaulay, Esq.; J. A. Bourdillon, Esq.; C. W. Bolton, Esq.; H. M. Kisch, Esq.; and H. Lee, Esq.

Hon'ble H. T. Prinsep in the Chair.

THE *Chairman* read the notice convening the Meeting.

Mr. Cotton suggested that in proposing the resolution, of which notice had been given, the opportunity should be taken on the part of the Management to explain more fully than had been done in recent circulars the history of the proposal to exempt Annuitants from subscription, and that in particular some further explanation might be given to the Service of the remark contained in the Managers' circular of the 24th August 1880, that "the Managers have steadily recognized that the Subscribers are committed to the grant of relief to Annuitants." He was sure that a clear account of the facts now would save trouble and unnecessary correspondence hereafter.

Mr. Westland moved the following resolution on the part of the Managers:—

"That so much of the amendment of Article VIII of the rules, adopted at the Half-yearly General Meeting held on 31st January last, as regards the subscriptions of Annuitants to the Ordinary Branch of the Fund be held in abeyance."

He said it would probably be necessary to explain how it came about that the Managers, after having proposed to the Service certain increases of benefits in January, found it necessary, before the year was out, to come again before the Service with proposals to keep part of their own plan in abeyance.

The question of increase of benefits had really been before the Service ever since 1873, in which year the Managers laid certain resolutions before a General Meeting; but these propositions were then rejected in favour of an amendment by Mr. Cotton that nothing should be done till an Actuary's report on the state of the Fund was received. Various circumstances delayed that report, so that it was received only in 1879, and the Managers, considering the state of the Fund on this report, had to choose whether they should bring their proposals for increase of benefits before the Service on such calculations as they had themselves the means of making, or whether they should make a further reference to the Actuary. The possibility of further indefinite delay in the event of the latter course being adopted, and what the Managers believed to be a manifest desire on the part of the Service that a matter so long under discussion should be pressed to a settlement, and that benefits so long in prospect should no longer be withheld, determined the Managers to make their proposals at once, on the understanding that the Actuary should be immediately consulted; and the votes of the Service approved this course.

The Actuary's report was received with unexpected promptness in July, and it showed that, in his opinion, the Managers' proposals had gone a little too far. So little, however, that it was really open to doubt whether, all things considered, it was necessary for the Managers to retrace their steps. The Managers, however, thought that, viewing the extreme importance of the interests committed to their care, they ought not to oppose their own confidence in the position of the Fund to the professional advice of their Actuary, and resolved at once to submit to the Service such modification as it appeared necessary to make in their original proposals.

In determining in what particular part of the January proposals a modification might best be made, they considered that the positive benefits added to the list were far too valuable possessions to be given up, if it could possibly be avoided, and thought that it would in every way involve less of hardship if they were to keep in abeyance for a short time (he hoped it would be a short time only) part of the reduction they had proposed in Annuitant subscriptions. They were strengthened in this opinion by observing that this reduction of subscription was the only one of their proposals which, when submitted to the vote of the Service, met with any degree of opposition, all the rest having been almost unanimously accepted.

Mr. Cotton had made enquiry as to how far the Managers considered themselves pledged by earlier proceedings to this remission of subscription. In 1868, when the first possibility of increase of benefits occurred, the principal proposition (founded upon the practice in the other Presidencies, where Annuitants do not subscribe at the same rates as active members) was to reduce their subscriptions by nine-tenths, the intention to retain one-tenth being founded on a reason which was really not valid. The Actuary then reported that the Fund could not afford to reduce more than one-half, and this was accordingly done. The whole tone of the proceedings, however, implied that the rest of the then intended reduction would be again brought forward when it was considered that the Fund admitted of it. Though the Managers could not admit this to be a pledge binding upon them, it was certainly sufficient reason why this particular form of benefit should form part of the next considerable scheme for additional benefits laid by the Managers before the Service, and there was no doubt that a good deal might be said for it on its merits; and even regarding the matter as a pledge, it might be pointed out that the Annuitants had received a very fair equivalent for the pledge of reduction to one-tenth, in the immediate reduction to one quarter and the practical promise of an early total abolition.

Mr. Macaulay said that the statement in the circular of 24th August, that the Subscribers are committed to the grant of relief to Annuitants, was quite accurate. The Managers, in presenting the results of the quinquennial valuation for the period ending 31st March 1868, made certain proposals for the utilization of the surplus then found in the Fund. One of them was "that all Annuitants be permitted to compound for their future payments of subscription at one-tenth of present rates." In reference to this proposal, the Managers said "the sum so obtained will be merely nominal, and the boon amounts virtually to relieving Annuitants from all subscriptions to the Fund. It is thought prudent to retain a rate of composition, however small, in order to ensure correct returns to the Fund office of family changes." A Special General Meeting approved this proposal, among others, "to the extent to which the ascertained surplus may, under the advice of the Actuary, be held to warrant." The Subscribers at large confirmed the proceeding of the Special General Meeting on this particular point by a majority of 92 votes to 11. In his report, the Actuary, Mr. Brown, said: "I would venture to suggest that, looking at all the liabilities, present and future, the proposition to allow retired members to compound for one-half the value of their subscriptions, ordinary and additional, would be as far as it is prudent to go on the present occasion." Accordingly the Managers, in their report presented at the Half-yearly General Meeting of 27th July 1870, recommended that "for the present the extension of benefits under this head be confined to a reduction by one-half of the rates of subscription or composition by retired members." Nothing therefore could be clearer than that the measure under which Annuitants should be virtually exempted from all subscriptions was only postponed and not abandoned. Mr. Westland had pointed out that the intention to retain even a composition of one-tenth was founded on a reason which was really not valid.

Mr. Cotton asked some questions regarding the actual amount of subscription for which Annuitants would be temporarily liable under the Managers' proposal. These were answered by Messrs. *Westland* and *Macaulay*.

Mr. Macaulay then read the following letter from Mr. R. P. Harrison, a retired Subscriber:—

Dated London, the 22nd October 1880.

From—R. P. HARRISON, ESQ.,

To—The Managers, Bengal Civil Fund, Calcutta.

In a letter dated 23rd September last, from the National Bank of India, I was informed that the Manager of their Calcutta Branch had, upon an application from your office, repaid to the Fund the sum of Rs. 277-12-5, being one-half of the amount refunded to me on account of subscriptions paid on my behalf subsequent to 1st April 1878. I was at the same time referred to a circular issued from the Fund Office, which was not, however, forwarded to me, and a copy of which I only obtained yesterday from Messrs. Coutts and Co., the Agents to the Fund in London.

If the Manager of the National Bank in Calcutta had made a previous reference to me, I should have declined to return any portion of the sum refunded, in accordance with a decision passed at a General Meeting of Subscribers, and confirmed by the votes of the Subscribers at large, under Article XVII of the rules.

The resolution of the General Meeting, duly confirmed by the Subscribers, which the Managers now seek to set aside, falls within the provisions of Article XVII, and is not subject to revision under Article XVIII, and has therefore become final and conclusive. My accumulated subscriptions to the Fund amount to upwards of one lakh and eighty thousand rupees, and I am not disposed to contribute further unnecessarily.

I have now to request that the amount paid for me by the National Bank of India on account of refund and subscription, which it appears to me has been demanded improperly and without any sufficient authority may be returned.

I have, in conclusion, to ask you to be good enough to place this letter before the Special General Meeting of Subscribers, which you have convened on 22nd November next.

Mr. Westland's motion was seconded by the *Hon'ble W. Fraser McDonell*, v.c., and was carried.

Mr. Cotton then said that, though he supported the Managers in regard to the resolution which had just been passed, he was of opinion that the facts stated in Mr. R. P. Harrison's letter, which he understood were correct, disclosed an irregularity of procedure on the part of the Management which ought not to be passed over in silence. The exemption of Annuitants from subscription was a measure which had become final and conclusive under Article XVII of the rules, and it was not within the competence of the Managers to anticipate any change of policy, or in any way modify a resolution formally passed at a previous meeting, until express authority had been conferred on them to do so by the Subscribers at a General Meeting convened under Article XVII of the Rules for the purpose.

Mr. Westland said that he objected to individual expressions of opinion which involved a censure on the Managers being placed before the Meeting without giving the Managers an opportunity of taking a vote on their conduct. He therefore requested that Mr. Cotton would express his opinion in a formal resolution.

Mr. Cotton said that it was far from his intention to propose a resolution which might have the appearance of a form of vote of censure on the Management, and, for his own part, he would have been content if his individual opinion on the action of the Managers had been recorded as part of the proceedings of the Meeting. But as he was pressed on behalf of the Management to propose a formal resolution, he would do so, and he did so with less hesitation because this was not the only instance in which the Managers, in his opinion, had recently shown a tendency to exceed the powers vested in them under the Fund rules.

Mr. Westland asked that any such case might be cited.

Mr. Cotton replied that on an early opportunity he would draw prominent attention to the case to which he referred. He begged now to propose the following resolution :—

"That the Managers have exceeded their authority in taking upon themselves to call upon Annuitants to repay any subscriptions in the face of a resolution passed by the Service exempting Annuitants from all subscriptions, and which has become final and conclusive under Article XVII of the rules; and that they should have awaited the sanction of the present Meeting."

The *Chairman* seconded the resolution. He remarked that it was not quite correct to state that the Managers had acted on the Actuary's recommendation. The Actuary had reported that the present state of our funds would not safely permit the adoption of all the proposed benefits to subscribers. He therefore suggested that we should abandon one of two of these benefits which we specified; but he added his own opinion which of these two we should retain. The Managers have not adopted that opinion, but have proposed to postpone the reduction of annuitants' subscriptions. The Managers exceeded their authority in anticipating the result of the present meeting, as pointed out by Mr. Cotton. Their circular to annuitants and the agents of annuitants was one which, in his (the Chairman's) opinion, did not leave it open to those persons whether they should or should not comply with the demand made.

Mr. Macaulay pointed out that in their circular of 13th October 1879, which was before the Subscribers when the alterations in the rules were approved, the Managers had recommended the immediate extension of the benefits "subject to discontinuance if the Actuary should report that the Fund cannot afford them." The Actuary had so reported. It was therefore open to the Managers to suspend all the benefits. They only suspended a part of one, however, and they immediately called a Special General Meeting to obtain the sanction of the Subscribers to their action.

Mr. Westland, after having asked the Secretary to repeat the passage from the circular of 13th October 1879, in which the Managers informed the Service of their intention to propose an immediate extension of benefits, "subject to discontinuance if the Actuary should report that the Fund cannot afford them," said that the Managers, when the Actuary's report was received by them in July, had two courses open to them. They might either continue to carry out the new propositions until they could be regularly set aside, or they might stop proceedings in anticipation, and call a General Meeting to reconsider the position. The Managers had practically in the words quoted undertaken to withhold the full operation of the new rules, and to submit for early reconsideration the questions that arose in the Actuary's report. They had lost no time in calling a General Meeting, and he submitted that, whatever difference of opinion there might be as to the propriety of the choice that the

Managers had made between the two courses he had referred to, there was no case for a resolution which was practically a vote of censure.

Mr. Cotton begged to observe that the remarks just made by Mr. Westland were inaccurate. The authority the Managers were empowered to exercise was clearly defined in the Fund Rules. Any question involving an increase or diminution of the rate of contribution came under Article XVII of the rules, and must be duly proposed under that section. The exemption of Annuitants was final and conclusive under the Resolution passed last January, and the subsequent confirmation of that resolution accorded by the Service. Under that authority, subscriptions had been refunded, and the Managers in again demanding payment from Annuitants in anticipation of the will of the present Meeting, which had still to be confirmed by the Subscribers at large, had exceeded their powers. The view the present Meeting might take could not have been foreseen, and ought not to have been anticipated.

The resolution was then put to the Meeting and negatived by a majority of votes.

Before the Meeting separated, *Mr. Cotton* wished to take the opportunity of stating, what was already known to most of those present, that he intended to propose a Resolution of considerable importance to the Fund at the General Half-yearly Meeting to be held in January next. He had observed that on other occasions when a Resolution of general importance had been proposed by an individual Subscriber, the Managers had been good enough to take upon themselves the responsibility and expense of the publication required under Article XVII of the rules, and he would be glad to know if the Management were prepared to concede this favour in his case. He wished himself to take no action without the cognizance of the Management, and as far as possible in communication with the Managers.

Messrs. McDonell, and *Westland*, expressed themselves willing to agree to the course proposed. The Managers were always glad to afford every reasonable facility to Subscribers in discussing the affairs of the Fund.

Mr. Cotton thanked the Managers for their courtesy and consideration to him personally in this respect.

A vote of thanks having been proposed to the Chairman, the Meeting separated.

CIVIL FUND OFFICE,
The 22nd November 1880.

H. T. PRINSEP,
(526—1) *Chairman.*

REGULATIONS FOR PREVENTING COLLISIONS AT SEA REFERRED TO IN THE FOREGOING ORDERS.

Preliminary.

ARTICLE 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

Rules concerning Lights.

ARTICLE 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, an 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ARTICLE 3. A sea-going steam-ship, when under way, shall carry—

(*a*) On or in front of the foremast at a height above the hull of not less than 20 feet, and if the breadth of the ship exceeds 20 feet then at a height above the hull of not less than such breadth, a bright white light so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of ship, viz. from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(*b*) On the starboard side, a green light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*c*) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*d*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ARTICLE 4. A steam-ship, when towing another ship, shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light which other steam-ships are required to carry.

ARTICLE 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry, in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of but not lower than her foremast head, three black balls or shapes, each two feet in diameter.

The above ships, when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ARTICLE 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ARTICLE 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ARTICLE 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ARTICLE 10. (*a*) *Open fishing boats, and other open boats, when under way, shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.*

(*b*) *A fishing vessel, and an open boat, when at anchor, shall exhibit a bright white light.*

(*c*) *A fishing vessel, when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.*

(*d*) *A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red, and the lower green, and shall also either carry the side lights required for other vessels, or, if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.*

(*e*) *Fishing vessels, and open boats, shall not be prevented from using a flare-up in addition, if they desire to do so.*

(*f*) *The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.*

(*g*) *All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.*

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on, to the other: in other words, to cases in which, by day, each ship sees the masts of the other in a line, or nearly in a line, with her own; and by night to cases in which each ship is in such a position as to see both the side lights of the other.

One short blast to mean "I am directing my course to starboard;"

Two short blasts to mean "I am directing my course to port;"

Three short blasts to mean "I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ARTICLE 20. Notwithstanding anything contained in any preceding Article, every ship, whether a sailing ship or a steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ARTICLE 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fairway or mid channel which lies on the starboard side of such ship.

ARTICLE 22. Where by the above rules one of two ships is to keep out of the way, the other shall keep her course.

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand,

tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

July 20th	187	12mo. ...	1st ...	500	ditto ...	1 0 0	Ashutosh Ghosh & Co., Calcutta.	The story of the *asura* or demon Táraka is one of a class of stories related in the Puranas possessing certain features in common, viz., the acquisition by a demon of unconquerable power through the favour of some principal Hindu deity; the overthrow of the gods and their expulsion from heaven by the exercise of that power; the invention of a special agency for the recovery of heaven, which generally takes place by the direction of the favouring deity; the destruction of the demon by the use of that special instrument. The book under notice presents one of such stories in the form of dialogues.	420

„ 17th	70	12mo. ..	2nd ...	1,000	ditto ..	0 12 0	I. C. Chandra and Brother, Calcutta.	When the chances of war were running high against Rábana, one of the expedients resorted to on his side in order to compel Rāma to desist from the engagement was to prepare an exact image of Sitá, place it on the wall of Lanká, and destroy it in the sight of the invading army. But the expedient had the contrary effect of infuriating Rāma's brother Lakshmana, who soon carried into effect his resolution to kill Rábana's eldest son Meghnád who had contrived the illusion. The book under notice relates this story in the form of dialogues for the benefit of ill-educated readers.	760

Sábitri, say the Puránas, rescued her dead husband from the hands of Yama, the king of the infernal regions. This work is of the class which suits ill-educated readers.	764

The book is full of remarks against some of the Municipal Commissioners of Calcutta, managers of theatres, honorary magistrates, Small Cause Court Judges, native political agitators, &c. Aug. 15th	48	12mo. ...	1st ..	500	Printed	0 6 0	Saroja Kánta Mukherji of Krishnagar.	A young man of ardent feelings is disappointed in love. Assuming the guise of a religious devotee, he leaves home, and takes up his abode on the top of a mountain. The recollection of what has befallen him unsettles his mind. He indulges in long mournful soliloquies, and when wrought up to a high pitch of despair plunges from the summit of the hill and is killed.	778
July 20th	94	12mo. ..	1st ...	500	ditto ...	0 8 0	Aditya Náth Banerji, Matipur.	The drama seems to be without a connected story. It consists of dialogues, tales from the Rámáyana and the Mahábhárata, and much other matter put together in an unconnected way.	779
June 15th	77	12mo. ..	1st ...	500	ditto ...	0 8 0	Dinanáth Chand	Contains the story of a youth belonging to an aristocratic Hindu family near Calcutta who has run into debt for the purpose of living a life of shameless debauchery. There are scenes in the work exhibiting a lamentable contrast between the former state of this family and its present condition, and others showing to what extent the hero of the story, who is a member of this family, can abase himself in order to win the favour of a prostitute. The name of the hero is Básaba Chandra; that of the heroine, Labeján Bibi The meaning of the title of the work seems to be that the hero is the son (nut) of an adopted son (a plant produced by grafting).	780

These are songs composed by Jagannáth Prasád Basu, Rádhámohan Sen, and Rámnidhi Gupta and relate chiefly to religion and love. The compiler professes himself to be one of those who are now endeavouring to correct the growing taste for European literature in this country by bringing to the notice of the public the literature of the country itself. The work contains a list of the tunes in Hindu music with the divisions of the day to which they are respectively suited.	781

The questions are of a recondite nature, that is to say, they relate to facts not generally known, and are often proposed in the shape of riddles. The Paurámik legends generally form the subject of the *tarjá*.	787

June 16th	48	8vo. rl.	1st	1,200	ditto	0 8 0	Sanjiba Chandra Chatterji, Kántálpárá, thanna Naiháti.	The series of papers on *Bangonnayana*, or the Raising of Bengal, is continued. The first of what will evidently be a series of papers on Kálidás's *Sakuntalá* judges that drama by the rules of dramatic composition, and points out that the character of Dushyanta has been dramatically sustained. The writer of another paper discusses the question of widow marriage from the economic standpoint, and says that the institution of widowhood in this country should not be done away with as it serves as a check on the increase of population. The writer applies his argument to the men of this country and says that it would be better for the widowers among them not to remarry.	221
July 22nd	48	ditto	1st	1,200	ditto	0 8 0	ditto	The second paper on *Sakuntalá* contains an analysis of Dushyanta's character. It is the opinion of the writer that Dushyanta represents the two opposite tendencies of man,—respect for the past, and independence of thought, and that in him are combined the two fundamental laws of society,—order and progress. The writer of a paper on education says that a mere professional education, unaccompanied by great general culture, is of comparatively little value.	222
Aug. 31st	48	ditto	1st	1,200	ditto	0 8 0	ditto	The writer of the first paper in this number analyzes the characters of Shakespeare's *Miranda* and Bábu Bankim Chandra Chatterji's *Kapálkundalá* and describes them as specimens of womanhood when unaffected by social influences. The writer of another paper says that social reformation in this country should be preceded by a reformation of the characters of individuals. In a paper entitled *Bhuterjáti*, or the *Ghost tribe*, some interesting facts are stated pointing to a strong connection between certain climatic conditions and national decline. These conditions are said to exist in this country.	224

Aug. 16th	40	8vo. ...	1st ...	260	ditto ...	0 8 0	Jaya Gobinda Shoma, 88, Balarám De's Street, Calcutta.	The editor says that he ceased to write political articles during Lord Lytton's administration, which he calls "a reign of terror," and will again take up politics, inasmuch as the Liberals have come into power and a Liberal statesman holds the office of Viceroy of India. More attention, he says, will be henceforth given to religion in the pages of the magazine. The editor has therefore opened a series of papers entitled "Indian Christian Biography," in which he gives brief biographical notices of Indian converts to Christianity. The present number contains the second paper of the series. The paper on the "Bengal Peasant" is continued, and the history of the Hughli College is commenced.	121

REGULATIONS FOR PREVENTING COLLISIONS AT SEA REFERRED TO IN THE FOREGOING ORDERS

Preliminary.

ARTICLE 1. In the following rules every steam-ship which is under sail and not under steam is to be considered a sailing ship; and every steam-ship which is under steam, whether under sail or not, is to be considered a ship under steam.

Rules concerning Lights.

ARTICLE 2. The lights mentioned in the following Articles, numbered 3, 4, 5, 6, 7, 8, 9, 10, an 11, and no others, shall be carried in all weathers, from sunset to sunrise.

ARTICLE 3. A sea-going steam-ship, when under way, shall carry—

(*a*) On or in front of the foremast at a height above the hull of not less than 20 feet, and if the breadth of the ship exceeds 20 feet then at a height above the hull of not less than such breadth, a bright white light so constructed as to show an uniform and unbroken light over an arc of the horizon of 20 points of the compass; so fixed as to throw the light 10 points on each side of ship, viz., from right ahead to 2 points abaft the beam on either side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least five miles.

(*b*) On the starboard side, a green light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the starboard side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*c*) On the port side, a red light, so constructed as to show an uniform and unbroken light over an arc of the horizon of 10 points of the compass; so fixed as to throw the light from right ahead to 2 points abaft the beam on the port side; and of such a character as to be visible on a dark night, with a clear atmosphere, at a distance of at least two miles.

(*d*) The said green and red side lights shall be fitted with inboard screens projecting at least three feet forward from the light, so as to prevent these lights from being seen across the bow.

ARTICLE 4. A steam-ship, when towing another ship, shall, in addition to her side lights, carry two bright white lights in a vertical line one over the other, not less than three feet apart, so as to distinguish her from other steam-ships. Each of these lights shall be of the same construction and character, and shall be carried in the same position as the white light which other steam-ships are required to carry.

ARTICLE 5. A ship, whether a steam-ship or a sailing ship, when employed either in laying or in picking up a telegraph cable, or which from any accident is not under command, shall at night carry, in the same position as the white light which steam-ships are required to carry, and, if a steam-ship, in place of that light three red lights in globular lanterns, each not less than 10 inches in diameter, in a vertical line one over the other, not less than three feet apart: and shall by day carry in a vertical line one over the other, not less than three feet apart, in front of but not lower than her foremast head, three black balls or shapes, each two feet in diameter.

These shapes and lights are to be taken by approaching ships as signals that the ship using them is not under command, and cannot therefore get out of the way.

The above ships, when not making any way through the water, shall not carry the side lights, but when making way shall carry them.

ARTICLE 6. A sailing ship under way, or being towed, shall carry the same lights as are provided by Article 3 for a steam-ship under way, with the exception of the white light, which she shall never carry.

ARTICLE 7. Whenever, as in the case of small vessels during bad weather, the green and red side lights cannot be fixed, these lights shall be kept on deck, on their respective sides of the vessel, ready for use; and shall, on the approach of or to other vessels, be exhibited on their respective sides in sufficient time to prevent collision, in such manner as to make them most visible, and so that the green light shall not be seen on the port side nor the red light on the starboard side.

To make the use of these portable lights more certain and easy, the lanterns containing them shall each be painted outside with the colour of the light they respectively contain, and shall be provided with proper screens.

ARTICLE 8. A ship, whether a steam-ship or a sailing ship, when at anchor, shall carry, where it can best be seen, but at a height not exceeding 20 feet above the hull, a white light, in a globular lantern of not less than 8 inches in diameter, and so constructed as to show a clear uniform and unbroken light visible all round the horizon, at a distance of at least one mile.

ARTICLE 9. A pilot vessel, when engaged on her station on pilotage duty, shall not carry the lights required for other vessels, but shall carry a white light at the masthead, visible all round the horizon, and shall also exhibit a flare-up light or flare-up lights at short intervals, which shall never exceed fifteen minutes.

A pilot vessel, when not engaged on her station on pilotage duty, shall carry lights similar to those of other ships.

ARTICLE 10. (*a*) *Open fishing boats, and other open boats, when under way, shall not be obliged to carry the side lights required for other vessels; but every such boat shall in lieu thereof have ready at hand a lantern with a green glass on the one side and a red glass on the other side; and on the approach of or to other vessels, such lantern shall be exhibited in sufficient time to prevent collision, so that the green light shall not be seen on the port side, nor the red light on the starboard side.*

(*b*) *A fishing vessel, and an open boat, when at anchor, shall exhibit a bright white light.*

(*c*) *A fishing vessel, when employed in drift net fishing, shall carry on one of her masts two red lights in a vertical line one over the other, not less than three feet apart.*

(*d*) *A trawler at work shall carry on one of her masts two lights in a vertical line one over the other, not less than three feet apart, the upper light red, and the lower green, and shall also either carry the side lights required for other vessels, or, if the side lights cannot be carried, have ready at hand the coloured lights as provided in Article 7, or a lantern with a red and a green glass as described in paragraph (a) of this Article.*

(*e*) *Fishing vessels, and open boats, shall not be prevented from using a flare-up in addition, if they desire to do so.*

(*f*) *The lights mentioned in this Article are substituted for those mentioned in the 12th, 13th, and 14th Articles of the Convention between France and England scheduled to the British Sea Fisheries Act, 1868.*

(*g*) *All lights required by this Article, except side lights, shall be in globular lanterns so constructed as to show all round the horizon.*

ARTICLE 10. This Article does not apply to fishing boats, open boats, or trawlers belonging to the several countries mentioned in the foregoing Order, viz., Khelat, Muscat, Zanzibar, Travancore, Kutch and Kattyawar.

ARTICLE 11. A ship which is being overtaken by another shall show from her stern to such last-mentioned ship a white light or a flare-up light.

Sound Signals for Fog, &c.

ARTICLE 12. A steam-ship shall be provided with a steam whistle or other efficient steam soundsignal, so placed that the sound may not be intercepted by any obstructions, and with an efficient fog horn to be sounded by a bellows or other mechanical means, and also with an efficient bell. A sailing ship shall be provided with a similar fog horn and bell.

In fog, mist, or falling snow, whether by day or night, the signals described in this Article shall be used as follows; that is to say—

(*a*) A steam-ship under way shall make with her steam whistle, or other steam sound signal, at intervals of not more than two minutes, a prolonged blast.

(*b*) A sailing ship under way shall make with her fog horn, at intervals of not more than two minutes, when on the starboard tack, one blast, when on the port tack two blasts in succession, and when with the wind abaft the beam three blasts in succession.

(*c*) A steam-ship and a sailing ship, when not under way, shall at intervals of not more than two minutes ring the bell.

Speed of Ships to be moderate in Fog, &c.

ARTICLE 13. Every ship, whether a sailing ship or steam-ship, shall in a fog, mist, or fallings now, go at a moderate speed.

Steering and Sailing Rules.

ARTICLE 14. When two sailing ships are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other, as follows, viz.:—

(*a*) A ship which is running free shall keep out of the way of a ship which is close-hauled.

(*b*) A ship which is close-hauled on the port tack shall keep out of the way of a ship which is close-hauled on the starboard tack.

(*c*) When both are running free with the wind on different sides, the ship which has the wind on the port side shall keep out of the way of the other.

(*d*) When both are running free with the wind on the same side, the ship which is to windward shall keep out of the way of the ship which is to leeward.

(*e*) A ship which has the wind aft shall keep out of the way of the other ship.

ARTICLE 15. If two ships under steam are meeting end on, or nearly end on, so as to involve risk of collision, each shall alter her course to starboard, so that each may pass on the port side of the other.

This Article only applies to cases where ships are meeting end on, or nearly end on, in such a manner as to involve risk of collision, and does not apply to two ships which must, if both keep on their respective courses, pass clear of each other.

The only cases to which it does apply are, when each of the two ships is end on, or nearly end on, to the other: in other words, to cases in which, by day, each ship sees the masts of the other in a line, or nearly in a line, with her own; and by night to cases in which each ship is in such a position as to see both the side lights of the other.

It does not apply by day to cases in which a ship sees another ahead crossing her own course; or by night, to cases where the red light of one ship is opposed to the red light of the other, or where the green light of one ship is opposed to the green light of the other, or where a red light without a green light, or a green light without a red light, is seen ahead, or where both green and red lights are seen anywhere but ahead.

ARTICLE 16. If two ships under steam are crossing, so as to involve risk of collision, the ship which has the other on her own starboard side shall keep out of the way of the other.

ARTICLE 17. If two ships, one of which is a sailing ship and the other a steam-ship, are proceeding in such directions as to involve risk of collision, the steam-ship shall keep out of the way of the sailing ship.

ARTICLE 18. Every steam-ship when approaching another ship, so as to involve risk of collision, shall slacken her speed or stop and reverse, if necessary.

ARTICLE 19. In taking any course authorized or required by these Regulations, a steam-ship under way may indicate that course to any other ship which she has in sight by the following signals on her steam whistle, viz :—

One short blast to mean "I am directing my course to starboard;"

Two short blasts to mean "I am directing my course to port;"

Three short blasts to mean "I am going full speed astern."

The use of these signals is optional; but if they are used, the course of the ship must be in accordance with the signal made.

ARTICLE 20. Notwithstanding anything contained in any preceding Article, every ship, whether a sailing ship or a steam-ship, overtaking any other, shall keep out of the way of the overtaken ship.

ARTICLE 21. In narrow channels every steam-ship shall, when it is safe and practicable, keep to that side of the fairway or mid-channel which lies on the starboard side of such ship.

ARTICLE 22. Where by the above rules one of two ships is to keep out of the way, the other shall keep her course.

ARTICLE 23. In obeying and construing these rules due regard shall be had to all dangers of navigation; and to any special circumstances which may render a departure from the above rules necessary in order to avoid immediate danger.

No Ship under any circumstances to neglect proper Precautions.

ARTICLE 24. Nothing in these rules shall exonerate any ship, or the owner, or master, or crew thereof, from the consequences of any neglect to carry lights or signals or of any neglect to keep a proper look-out, or of the neglect of any precaution which may be required by the ordinary practice of seamen, or by the special circumstances of the case.

Reservation of Rules for Harbours and Inland Navigation.

ARTICLE 25. Nothing in these rules shall interfere with the operation of a special rule, duly made by local authority, relative to the navigation of any harbour, river, or inland navigation.

Special Lights for Squadrons and Convoys.

ARTICLE 26. Nothing in these rules shall interfere with the operation of any special rules made by the Government of any nation with respect to additional station and signal lights for two or more ships of war or for ships sailing under convoy.

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand

tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

Article VI.—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

The following are the conditions of sale:—

1.—The Opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The Opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest and sold to the highest bidder above that price, except under the circumstances for which provision is made by Clause 13 of these Conditions of Sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday, or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal Receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M. or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said promissory notes shall be absolutely payable in any event and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such note or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the 5th condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium after making full payment as above prescribed shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this Office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall, on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained, and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the

same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that, in providing the investment of the opium manufactured at the Patna factory and the opium manufactured at the Ghazeepore factory for the year 1879-80, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore factories, and a statement of the average weight of the chests, indiscriminately taken for the purpose of comparison from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—The attention of the public is particularly drawn to the fact that of the aforesaid 15,204 chests of the opium manufactured at the Ghazeepore factory, of the season 1878-79, 1,729 chests consist of opium specially manufactured at a consistence of 75°, and also to the fact that the ordinary opium manufactured at the Ghazeepore factory of that season is of unusually high consistence. The numbers and the distinctive marks of the 1,729 chests of 75° consistence will be duly mentioned in the notifications of the sales in which they will be brought forward.

19.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

20.—It is hereby further notified that under the 6th Article of the Convention between Great Britain and France, dated the 7th March 1815, quoted below, the Agents in India of the French Government, or persons duly appointed by them, are entitled to demand that out of the quantities of opium manufactured at the Patna and Ghazeepore factories declared as above for sale at the twelve sales of the year 1881, there shall be delivered to them, at the average of the particular sale or sales to which the opium so applied for may belong, a quantity not exceeding in the aggregate 300 chests, and the Agents of the French Government must make requisition specifying the quantity of opium required by them at any particular sale within thirty days from the advertisement of such intended sale: provided, however, that the Agent of the French Government may make such requisition for the whole quantity within thirty days from the publication of this notification. If the Agent of the French Government shall not make the requisition for opium within the time above mentioned, the entire quantity of about 56,400 chests of opium manufactured at the Patna and Ghazeepore factories, as above estimated, will be brought to sale in the usual manner; and if they shall make application for a quantity of opium to be delivered to them out of the quantity advertised for sale at each or any of the twelve sales above mentioned, but shall not pay for it within the prescribed period of payment, the Government of Bengal reserves to itself the right of disposing of the opium which the French Authorities may so fail to pay for, either by increasing the quantity reserved at the sale next ensuing after the date fixed for payment, or by selling such opium, or any portion of it at any subsequent monthly sale in addition to the quantity which in this advertisement is approximately mentioned as the quantity to be sold at such sale; or by selling such opium at a sale to be held expressly for the purpose.

Article of the Convention above referred to.

Article VI.—"With regard to the trade in opium, it is agreed between the high contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government, and delivered upon requisition duly made by the Agents of His Most Christian Majesty, or by the persons duly appointed by them, the number of chests so applied for, provided that such supply shall not exceed three hundred chests in each year, and the price for the same shall be determined by the average rate at which opium shall have been sold at every such periodical sale, it being understood that if the quantity of opium applied for at any one time shall not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery, the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred chests hereinbefore mentioned. The requisitions for opium, as aforesaid, are to be addressed to the Governor-General at Calcutta within thirty days after notice of the intended sales shall have been published in the *Government Gazette*."

No. 120.—The following Regulations respecting the examination of Candidates for the Civil Service of India, to be held in June 1881, are published for general information :—

CIVIL SERVICE OF INDIA.

The Civil Service Commissioners have been requested to inform Candidates for the Indian Civil Service, that, "in the event of their being appointed to the Service, a clause will be introduced into their Covenants, by which they will bind themselves to agree to such Regulations for the provision of pensions for their families as may be approved by the Secretary of State for India in Council."

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF JUNE, 1881.

N.B.—The Regulations are liable to be altered in future years.

1. On the 2nd June, 1881, and following days, an Examination, open to all qualified persons, will be held in London.(*a*) Not fewer than Candidates will be selected, if so many shall be found duly qualified; *viz.* for the Presidency of Bengal, [for the Upper, and for the Lower Provinces,] for that of Madras, and for that of Bombay.(*b*)

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners:—

(i.) That he is a natural-born subject of Her Majesty.

(ii.) That his age will be above seventeen years and under nineteen years on the 1st June, 1881. [*N.B.—In the case of Natives of India this must be certified by the Government of India, or of the Presidency or Province in which the Candidate may have resided.*]

The Commissioners may however, in their discretion, at any time prior to the grant of the Certificate of qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries, in the case of any Candidate, should be unsatisfactory to them in any of the above respects, he

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary, in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."(*g*)

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary. The last of these Examinations will be held at the close of the second year of probation, and will be called the "Final Examination," at which it will be decided whether a Selected Candidate is qualified for the Civil Service of India. At this Examination Candidates will be permitted to take up any one of the following branches of Natural Science, *viz.*—Botany, Geology, or Zoology, for which 350 marks will be allowed.

10. Any Candidate who, at any of the periodical Examinations, shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of Selected Candidates.

11. The Selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, and character, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

(*d*) A considerable portion of the marks for English History and Literature will be allotted to the work selected by the Candidate. In awarding marks for this, regard will be had partly to the extent and importance of the periods or books selected, but chiefly to the thoroughness with which they have been studied.

(*e*) The Examination will range from Arithmetic, Algebra, and Elementary Geometry, up to the elements of the differential and integral calculus, including the lowest portions of applied Mathematics.

(*f*) The standard of marking in Sanskrit and Arabic will be determined with reference to a high degree of proficiency, such as may be expected to be reached by a Native of good education.

(*g*) Marks assigned in English Composition and Mathematics will be subject to no deduction.

(*h*) Full instructions as to the course of study to be pursued will be issued to the successful Candidates as soon as possible after the result of the Open Competition is declared.

1880. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 1st April 1881. I.—A free passage, or refund of passage-money, may be granted at the following rates to a public servant in the civil department when travelling by sea or in a river steamer, if he would be entitled to draw travelling allowance if he were travelling on land.

II.—For the purposes of these rules—

The second assistant port officer at Madras
The conservator, river Indus.

2nd.—Marine officers of the 3rd grade, warrant officers, non-commissioned military officers, European soldiers, and uncovenanted servants in superior service as defined in the Civil Pension Code with the exception (1) of those included in the first class; and (2) of those on monthly salaries of less than Rs. 30, who ought, in the opinion of the heads of their offices, to belong to the third class.

3rd.—All other officers.

III.—An officer of the first class is entitled—
